

# CASE STUDY - PPE Supplies Streicher and Bouchamaoui with Mobile Scraper Launchers

**Client:** Streicher and Bouchamaoui

**Project:** Nawara and South Tunisia Gas Development Project

**End Client:** OMV

**Location:** Tunisia

## Project Overview

German energy plant company Streicher and Tunisian civil engineering company Bouchamaoui were both responsible for pipeline construction, engineering and procurement for OMVs Nawara and South Tunisia Gas Development Project. The companies contracted PPE to develop bespoke mobile scraper launchers to be deployed on the project.

## Challenge

- Streicher and Bouchamaoui required the mobile scraper launchers to be designed and manufactured to parameters of 6" x 8" for use on the project.
- The products had to be delivered on schedule and remain within a set budget without compromising on quality.
- The launchers needed to comply with strict Tunisian specifications as well as client requirements.

## The Solution

- PPE's experienced design team used their industry knowledge to design the mobile scraper launchers to client requirements and industry regulations.
- Using its influence in the supply chain, PPE was able to source high quality materials within the clients budget.
- The engineering team were able to use their extensive skills to fabricate and manufacture the products at PPE's impressive Teesside facilities.

## Why PPE

- PPE has over 80 years of combined experience in supplying pipeline solutions to oil and gas projects across the globe.
- With facilities spanning 56,000 sq ft, PPE possess the capabilities to supply a bespoke and full turnkey service from design right through to delivery of products for clients.
- Vast experience working in the international energy markets has given PPE the knowledge and skills required to meet strict international regulations.
- Fully certified to ISO 9001:2015 standards, PPE operates in accordance with the highest standards in the industry.

## Key Achievements

- PPE was able to complete the project in strict timescales whilst adhering to client's budget requirements.
- The mobile scraper launchers created fully complied with stringent Tunisian specifications.
- All services were provided in-house saving the clients both time and money.
